

ENGINEERING SERVICES
ENGINEERING REPORT NO. Eng- 019/09
December, 2008

Approval Date: January 12, 2009

CAPITAL:

1. Placement of the sewer has been completed on the Whiting Creek Trunk Sewer project and the contractor is working on deficiencies. Once the deficiencies have been looked after testing will take place.
2. Word from the Ministry of Transportation is that the letter regarding the access to Harris Street from the proposed industrial and highway commercial development areas is in the minister's office, however; there is no time frame on when it might be delivered to the County and/or Town.
3. I have contacted the UTRCA and AECOM regarding the review of the hydrology report as submitted by AECOM. I am awaiting confirmation that plans and specifications will be available shortly for review and that tendering will follow shortly after the review.
4. Work on the PSAB 3150 and Asset Management project continues. Engineering is continuing to fill in the gaps on our assets.
5. Submitted proposals and estimates regarding the closure of the McKeand Street – C. N. R. Crossing to Transport Canada for their review. The review should allow the Town to receive grants for the construction required as a result of the closure.
6. Work continues on Capital projects for 2009 with both County and Town projects.

ADMINISTRATION

1. I attended meetings involving the following:
 - Management
 - PSAB
 - Met with developers

Respectfully submitted,

E.R. (Gene) McLaren, C.E.T.
Director Engineering Services
