

Town of Ingersoll
Information Technology
Pre-budget Approval Expenditure

Report no.: C-045/10
Approved Date: 8 February 2010

Purpose

The purpose of this report is to receive council's approval for a pre-budget purchase of two additional servers, two tape units, associated adapter cards and tape cartridges.

Discussion

The following equipment is required to alleviate town IT resources from over utilization and gain greater space to allow resources be available at a moments notice.

1 Quantum 12.8 TB Super loader 3 LTO 4 8 Slots	\$4557.17
20 Data Cartridges LTO 4	\$1074.18
1 SATA SC44GE HBA Adapter Card	\$346.70
1 Hewlett Packard DL120 G6 X3440 Server	\$1521.08
1 Quantum Single Drive 3 GB Tape Unit	\$2503.79
1 SATA SC44GE HBA Adapter Card	\$346.70
1 HP DL 380 G6 E5540 2P 8 GB Server	
8 HP 300 GB 3 G SAS 10 K Hard Drives	\$11962.37
1 SATA SC44GE HBA Adapter Card	\$346.70

Due to the recent system failure we are building more redundancy in our systems to prevent less down time and more areas of storage for data to be transferred in the event of an emergency.

The purchase of this equipment is to be procured from the IT Hardware reserve and will have no effect on the 2010 budget.

Recommendation

That council pre-approve the expenditure of approximately \$22,700.00 for the purchase of the listed equipment.

Respectfully submitted,

John Brown
Information Technologist
