This letter is regarding the selling of Percy St.

With the selling of Percy St. the value of my property will be greatly reduced as well as my other 2 neighbours. All 3 of us have large lots at the back which we could have had another house put on the lots or sold the lots for a house to be put on if Percy St. was put in.

Percy St. was on the maps for many years yet when I took the property over from my parents and had the land surveyed and went to the town to discuss the drainage problems from the park, which floods our basement every spring they denied Percy St. ever existed. They have denied it several times over the years. My insurance company isn't happy about the poor drainage either. The parks dept. was going to fix our 3 properties the next summer after doing the other 3 properties in our section. They said they couldn't do it at the same time because of no more money in the budget that year but would include it in the next year.

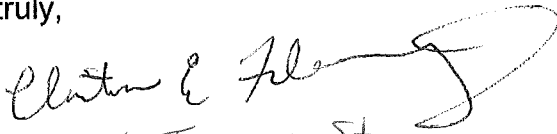

According to the ad in the Times on March 17th,2010, pertaining to the selling of Percy St. as being closed and sold, Why was it not put up for sale for anyone to purchase and only part of it is sold. What part is sold?

Even at the town council meeting, the councillors did not know that Percy St. was there until I mentioned it. They quickly took my map and photocopied it. It seems quite a coincidence that the street comes up for sale right away, especially since they said Percy St. never existed.

Why has the town been very sneaky and behind all the citizens backs? We voted these councillors in and they are to work for the people and listen to their concerns. Are we becoming like some big cities where the people don't matter. The only thing that matters to them is the money and making a name for themselves. What is next taking bribes? Everytime you go to the town offices most employees are not very friendly nor helpful. They act like you are bothering them. I hear this quite often from other people. The town needs to work on better public relations or at least act like they are concerned or care.

We seem to be losing our small and friendly town because some think bigger is better. We will soon not have a say in anything just pay the taxes. We do not have to be the same as other communities. We have our own uniqueness which should not be lost.

Yours truly,
