2010

Ingersoll Town Council

Due to a number of uncontrollable circumstances we are being forced to move our event and courses from their original locations. One of the situations that is causing this move is the restructuring of the school system in Ingersoll; Harris Heights Public School will be undergoing extensive renovations beginning at the end of this school year and will continue for 2 years. This will prevent us from using their gymnasium and parking lot as our host venue. Other situations that is causing the rerouting of our courses are the construction projects that are planned for this 2010 summer (July to November).

As soon as this information came to our attention we were in contact with both Glyn Parsons of the OPP, and John Phillips from the Public Works department. During our meeting we discussed various options that would still give us our distances and would be acceptable by both of their perspectives. We tried to keep our signature event, the 10km race similar to the original course, but we are unable to do this with our 3km race.

With your approval our NEW host location will be in Victoria Park; the starting position for the races will be on Park Avenue, and the finish line will be on the paved track near the Creative Arts Centre. We have attached detailed maps for your review of the courses. We hope these are acceptable and will be approved so we can continue with this fantastic event.

Some points of concern with these new courses are: we have discussed with the OPP and Public Works to have barrier cones along Whiting Street and Ingersoll Street for the protection of the runners, we will also be placing barricades in the appropriate locations to control traffic entering the course. We have been in communication with the Lawn Tractor Racing group to coordinate with them the sharing of the Park as well as Park Avenue, and we have received approval from Ingrox Ltd for the use of their green space that will take the runners from Ingersoll Street to Witty Avenue. The following groups will be noted on our insurance; South-West Oxford, Town Of Ingersoll, Ingrox Ltd, and the Creative Arts Centre. We have requested the use of the Arts Centre for our registration and post awards presentations.

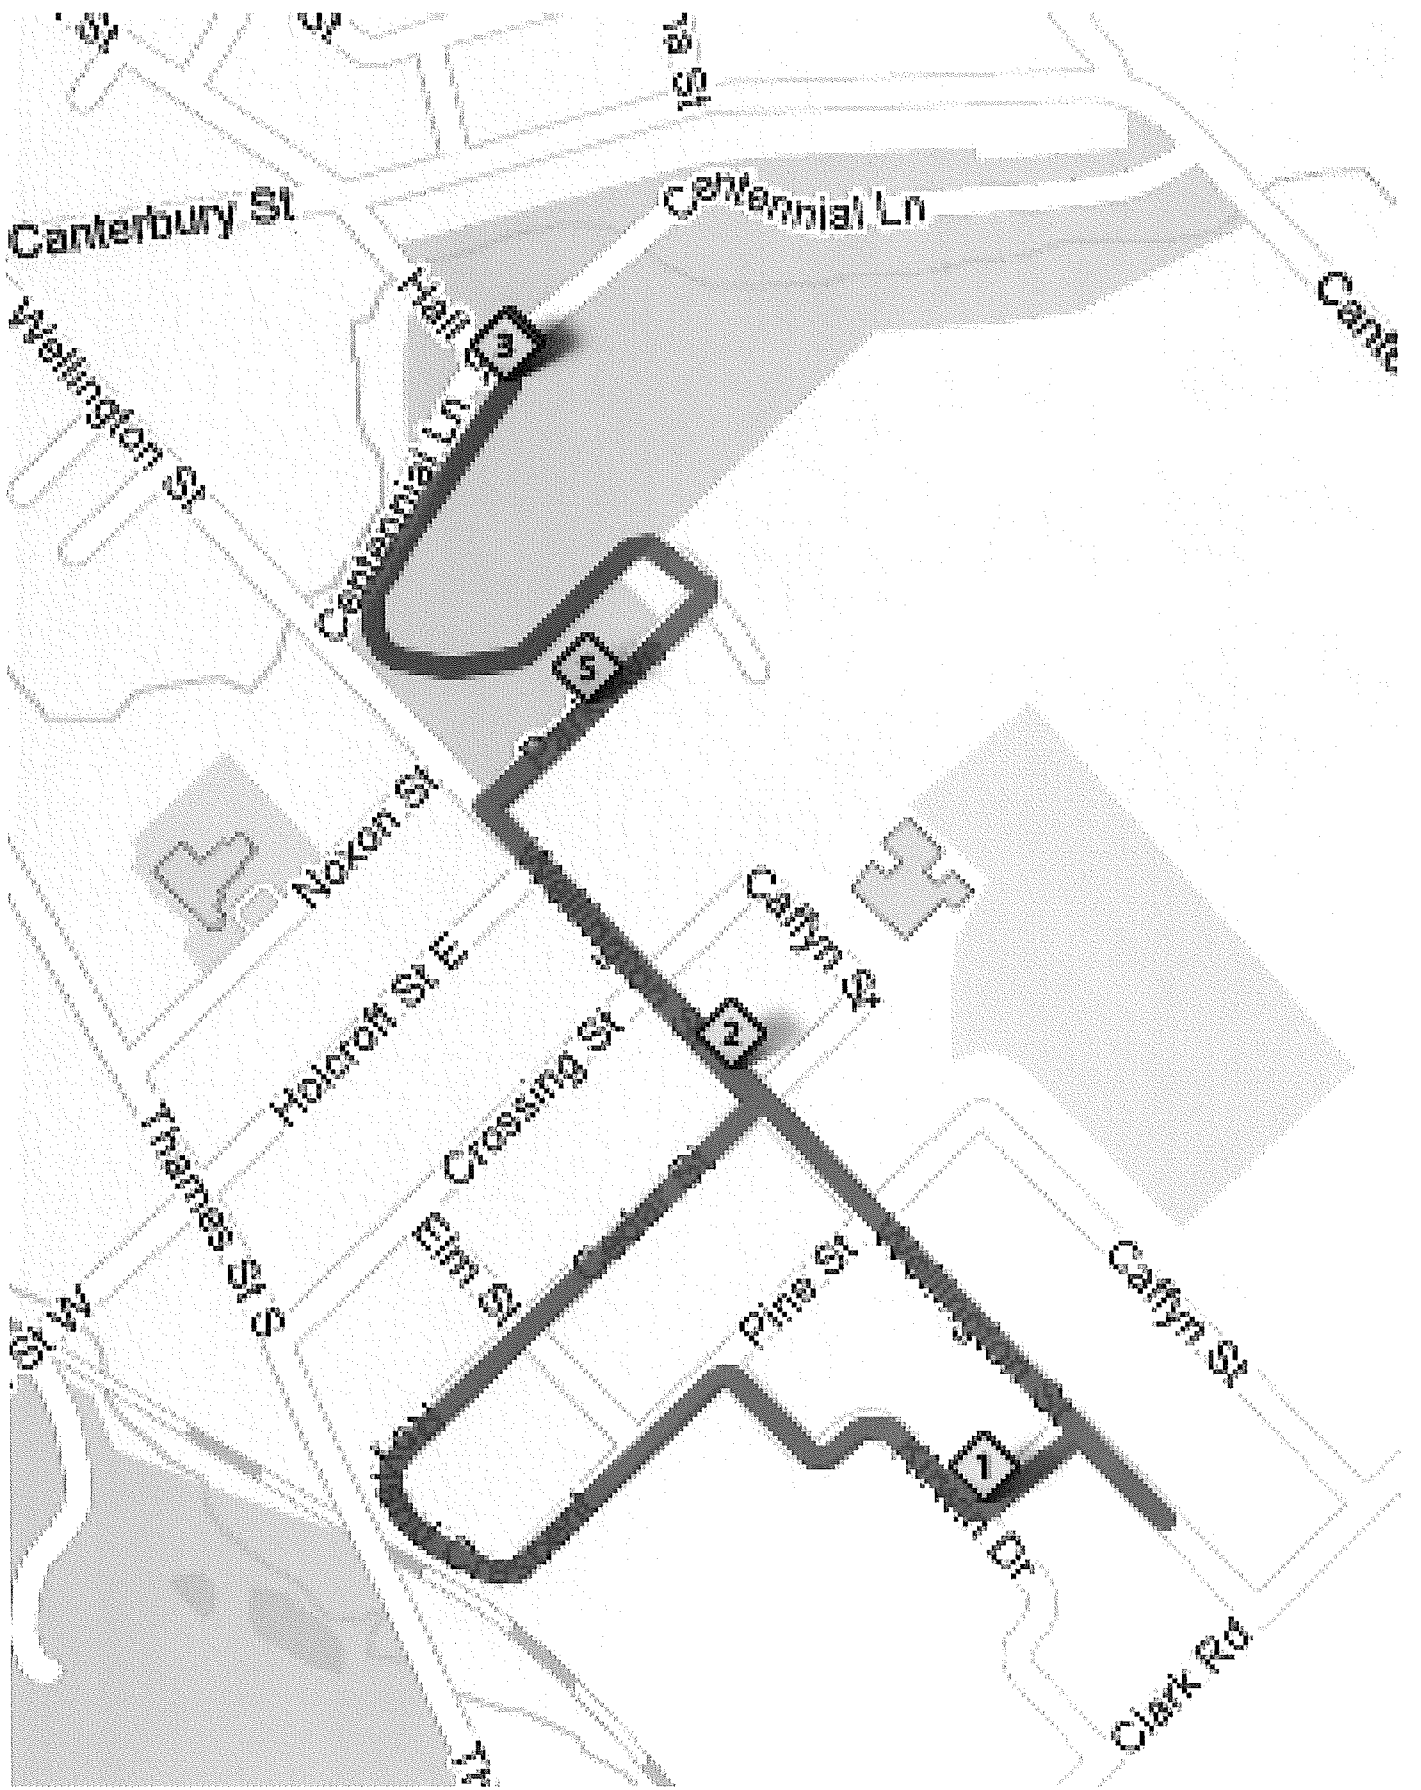

Please don't hesitate to contact us if there are any questions or concerns for these new routes. If all goes well we will intend on remaining at these new locations permanently.
