October 29, 2009

Mayor Paul Holbrough and Council  
Corporation of the Town of Ingersoll  
Town Centre  
130 Oxford Street, 2nd Floor  
Ingersoll, Ontario N5C 2V5

Dear Mayor Holbrough and Council Members:

Given the current pandemic status, Alexandra Hospital, Ingersoll has experienced an increase of approximately 40% in its Emergency Room visits. Additionally there have been significant increases in the number of visits to the Family Physicians' offices on the second floor of our building.

As the primary healthcare provider for Ingersoll and area residents, it is our goal to serve our clients in a manner that is both efficient and respectful. In an effort to do this, I respectfully request Council's consideration in allowing parking to occur on Noxon Street, between Thames and Wellington Streets, until November 30, 2009.

This will help to relieve some of the parking challenges being faced as we deal with the influx of additional patients. It will also allow those very ill patients, or those with small children, better access to our services.

Given that the nature of the H1N1 virus is to strike in waves, there may be another influx of clients. At this time, I will submit a letter extending this request.

Sincerely,

Rosilee Peto  
Director - Environmental Services and Special Projects

cc. AHI Leadership Team  
Maureen McKenzie, Resource Nurse - Emergency Room and Ambulatory Clinics
