AUDITOR'S REPORT

To the Members of Council, Inhabitants and Ratepayers of The Corporation of the Town of Ingersoll

I have audited the consolidated statement of financial position of The Corporation of the Town of Ingersoll as at December 31, 2006 and the consolidated statements of financial activities and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Town's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Town as at December 31, 2006 and the results of its operations and its cash flow for the year then ended, in accordance with the Canadian generally accepted accounting principles.

The Corporation of the Town of Ingersoll

Notes to the Consolidated Financial Statements December 31, 2006

The Corporation of the Town of Ingersoll is a municipality in the Province of Ontario, Canada. It conducts its operations guided by the provisions of provincial statutes such as the Municipal Act, Municipal Affairs Act and related legislation.

1. Significant accounting policies

The consolidated financial statements of The Corporation of the Town of Ingersoll (the "Town") are prepared by management in accordance with Canadian generally accepted accounting principles prescribed for local governments as recommended by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants. Significant accounting policies are as follows:

Reporting entity

The consolidated financial statements reflect the assets, liabilities, revenues, expenditures and fund balances of the reporting entity. The reporting entity is comprised of all organizations, committees and local boards accountable for the administration of their financial affairs and resources to the Town and which are owned or controlled by the Town. Inter-departmental and inter-organizational transactions and balances between these organizations have been eliminated. These financial statements include the Ingersoll Board of Management.

A government partnership exists where the municipality has shared control over the board or entity. The municipality's pro-rata share of the assets, liabilities, revenues and expenditures are reflected in the financial statements using the proportional consolidation method. The municipality's proportional interest of the Ingersoll Rural Cemetery Board is reflected in the consolidated financial statements.

Government business enterprises are separate legal entities that do not rely on the municipality for funding. Investments in government business enterprises are accounted for using the modified equity method. Erie Thames Services Corporation is reflected in the consolidated financial statements on this basis.

Basis of accounting

Revenues and expenditures are reported using the accrual basis of accounting. This basis of accounting recognizes revenues as they become available and measurable; expenditures are recognized as they are incurred and measurable as a result of receipt of goods or services and the creation of a legal obligation to pay.

Fund accounting

Funds within the consolidated financial statements consist of current, capital and reserve funds. Transfers between funds are recorded as adjustments to the appropriate municipal fund balance.

Deferred revenue

Revenue restricted by legislation, regulation or agreement and not available for general municipal purposes is reported as deferred revenue on the *Consolidated Statement of Financial Position*. This revenue is reported on the *Consolidated Statement of Financial Activities* in the year in which it is used for the specified purpose.

Reserves and reserve funds

Certain amounts, as approved by Council, are set aside in reserves and reserve funds for future operating and capital purposes. Transfers to and from reserves and reserve funds are recorded as an adjustment to the respective fund balance when approved.

Government grants

Government grants are recognized in the financial statements as revenues in the period in which events giving rise to the grant occurs, providing the grant is authorized, any eligibility criteria have been met, and reasonable estimates of the amount can be made.

County and Education taxes

The Town collects taxation revenues on behalf of local school boards and the County of Oxford. The taxation, other revenues, expenditures, assets and liabilities with respect to the operations of the school boards and the County of Oxford are not reflected in these financial statements.

During the year, the Town collected and remitted taxation revenue of \$6,108,236 (2005 - \$6,110,307) for the local school boards and \$5,361,880 (2005 - \$5,249,610) for The County of Oxford.

Trust funds

Trust funds administered by the Town are presented in a separate financial statement of trust fund balances and operations. As such balances are held in trust by the Town for the benefit of others, they are not presented as part of the Town's financial position or financial activities.

Trust funds amounted to \$192,664 (2005 - \$186,673) at the end of the year.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the period. Actual results could differ from management's best estimates as additional information becomes available in the future.

2. Investment in Erie Thames Power Corporation

The Town's investment in Erie Thames Power Corporation is comprised of:

	2006	2005
	\$	\$
