HELP PAGE

IMPORTANT

DO NOT change Settings which are built into this FIR2006, or the FIR2006 file will NOT function properly.

The FIR2006 has been pre-formatted to ensure that every user can complete the FIR and MPMP Schedules with efficiency and accuracy.

Do Not CUT and PASTE (or similarly Drag and Drop)

CUT and PASTE (or Drag and Drop) will greatly affect many or all of the background formulas and links that have been incorporated into the FIR2006. If you have cut and pasted any information into the FIR file, unfortunately the only way to correct the file is to download a fresh copy and start over.

It is also recommended that you DO NOT Copy and Paste. However, the Copy and Paste feature may be used with caution providing that information is only copied and pasted from an open workbook within the same Excel application that is currently running the FIR2006. Information that is copied and pasted from one Excel application to another is treated as a cut and paste and will damage the FIR file. Also, DO NOT Paste into a cell that contains a drop-down LIST, otherwise the LIST, CHECKS and calculations will no longer function.

Do Not set up the FIR2006 file as a "Shared Workbook"

Setting up the file as a shared workbook will not allow the macros to function properly.
