Information Letter to Residents

Earl Street Reconstruction

The Town of Ingersoll is proceeding with the reconstruction of **Earl Street from Francis Street to Ann Street** as approved in the 2025 Capital Budget. The reconstruction involves the installation of sanitary and storm sewers and new asphalt road surface including curb and gutter. A 1.5m wide concrete sidewalk will replace the existing sidewalk on the east side of Earl Street. The existing asphalt/concrete sidewalk on the east side will be removed.

The tender package for the project is currently out for bid with the tender scheduled to close on April 8th, 2025. Additional information letters to residents will be distributed once the contract has been awarded and the construction schedule of the successful contractor is finalized, however the Town is anticipating construction will occur between August and October this year.

A set of construction drawings is available for public viewing at the Town of Ingersoll Municipal Office located at 130 Oxford Street, 2nd Fl, between the hours of 8:30am to 4:30pm, or by appointment, until April 17th, 2025.

Information about this project, including the notices, drawings and periodic updates will be available through the Town's website at: [Live and Play – "Construction Projects"](#)

Comments or questions can be submitted in person at the Town's Municipal Office, 130 Oxford Street, 2nd Fl, Ingersoll ON N5C 2V5 or by email at engineering@ingersoll.ca
