

TINY'S LTD

ABOUT THE BUSINESS

Located at 184 Carnegie Street, Tiny's LTD is a full-service automotive repair facility proudly serving Ingersoll and Oxford County since 2008. From personal vehicles and utility trailers to medium-duty commercial trucks and equipment, Tiny's has built a reputation for quality workmanship, honest service, and treating every customer like family.

Whether it's routine maintenance, diagnostics, alignments, air conditioning repairs, custom installations, or commercial fleet maintenance, Tiny's offers a true one-stop shop for keeping vehicles safely on the road.

BUILT BY FAMILY, BACKED BY COMMUNITY

Tiny's LTD was founded in 2008 by Tiny and Jan Somerville with a dream of building a business rooted in hard work and community values. Tiny's father, recently retired from CAMI at the time, helped make that dream possible by renting space from Bidwell's Towing to help the business get its start.

As the business continued to grow, Tiny and Jan purchased their current property and built their first dedicated shop in 2013. A decade later, they expanded once again by constructing a second facility dedicated to commercial vehicle service, allowing them to better serve businesses throughout the region.

INVEST IN LOCAL TALENT

An IDCI graduate, Tiny has spent his entire career working in Ingersoll and the surrounding area. One of his greatest passions is mentoring the next generation of skilled tradespeople.

That commitment is reflected throughout the business—eight of Tiny's twelve employees are also graduates of Ingersoll District Collegiate Institute (IDCI). By providing meaningful careers close to home, Tiny's continues to strengthen the local workforce while helping young technicians build successful futures.

COMMUNITY COMMITMENT

Giving back has always been an important part of Tiny's story. The company proudly sponsors local sports teams, supports up-and-coming race car driver Grayson Masson, and was one of the major sponsors of the Good for the Soil Festival.

Their belief is simple: *when local businesses support one another, the entire community grows stronger.*

MILESTONES & GROWTH

Over the past 18 years, Tiny's has celebrated several exciting milestones, including:

- Serving Oxford County for over 18 years
- Becoming an official NAPA AUTOPRO location in 2025
- Officially trademarking the Tiny's logo in 2025
- Expanding with a dedicated commercial division in 2023
- Launching their first franchise pilot project near Charlottetown, Prince Edward Island, with plans for future expansion

While the business continues to grow beyond Ontario, Tiny and Jan remain firmly rooted in the community where it all began.

Outside the shop, they're equally proud of another accomplishment—they're the proud parents of seven children and soon-to-be grandparents of ten grandchildren.

SERVICES

Tiny's LTD offers complete automotive and commercial repair services, including:

- Vehicle maintenance and diagnostics
- Brake service
- Wheel alignments
- Air conditioning service
- Utility trailer repairs
- Medium-duty truck maintenance
- Custom automotive installations
- Commercial fleet service

Their experienced technicians work on virtually every type of vehicle, making Tiny's a trusted destination for drivers throughout Oxford County.

FUN FACTS

Tiny's is a shop full of local pride—and dog lovers!

Not only are eight members of the team IDCI graduates, but the Somerville family also has a soft spot for Dachshunds. Tiny's four-legged family includes two Dachshunds named Ernie and Beef, along with their Basset Hound, Burt—who would likely win "Employee of the Month" if given the chance.

LOCAL SHOUT-OUT

When asked about their favourite local businesses, the Tiny's team simply couldn't pick just one. They proudly support fellow Ingersoll businesses including Tremblett's Independent Grocer, Barkin Boujee, P.B.'s French Fries, NAPA Auto Parts, Ackert's Auto Spa, Tamed, and countless other local entrepreneurs.

Their philosophy is simple: *Ingersoll has an incredible small business community, and supporting one another helps everyone succeed.*
